

LC Problem Solving Academy

“One dollar out of every three payroll dollars is LOST for good due to disengaged employees.” Fast Company

The solution? Bring our soft skills training to your team. LC Problem Solving Academy bridges the gap between education and industry by strengthening an individual's leadership, problem solving, and soft skills. Our instructors bring decades of lean manufacturing experience to your organization through our onsite training programs. In each workshop we leverage proven training methods, industry specific examples, and hands on learning to draw the best out of your employees.

Workshops We Offer
